YOUR POINT OF VIEW

Extreme sports are tearing the envelope like never before, and these on-board POV-cam systems will be there for you every step and slide of the way. They're shock-resistant, water-and dust-proof, built to handle your lifestyle and capture all of it on lightweight, ultra reliable tapeless media with crystal-clear imagery.

POV cameras are easily attachable to where you need them, feature lengthy SD-card storage times in a variety of formats, and download quickly to NLE systems. No matter how you grip it and rip it, your POV is captured for keeps.

Filmmakers are also pushing the edges of the frame, and POV cams are making music videos, documentaries, and indie films more visceral and exciting than ever. Extended techniques and hybrid styles are now part of a shooter's vibe. POV cams can capture the unique footage you want, for projects that crackle and pop with energy. These unique cameras are also ideal for undercover applications. They're small enough for situations impractical or inaccessible to conventional cams. Wherever your ride takes you, POV cams are the new generation of image capture.

VHOLDR VholdR
Wearable Camcorder

Capture and share your most exhilarating extreme experiences with the rugged, weatherproof VHoldR camcorder. A helmet mounted camcorder that takes your video beyond the everyday, use it to capture all the action when you're riding, skating, wind surfing and then some. Attach it securely to helmet, handle bars or anything else you can think of. Any flat surface you can mount the VholdR to, you can record from.

- Single button record feature keeps things simple Jst push the button forward to turn it on and back for off. Fine Line processing provides you with steady video.
- Records to MicroSD card (1GB card included)
- Able to withstand high levels of abuse, it captures even the most challenging extreme experience.
- No need to fuss with focus: the camera's dual lasers, activated on demand, indicate where it's pointed and if its level. Lens and capture card rotate in unison within a pivoting, hermetically sealed capsule—so no matter how upside-down your world, the VholdR makes it level.

VholdR Wearable Camcorder *(B&H# VHVWC)* **279.95**

Motorsports HERO Wide
World's Smallest, Wireless On-Board Video Camera

Motorsports HERO Wide Video Camera is a 5MP camera with a 170° wide angle lens for capturing as much of the action as possible. The camera mounts to virtually anything— car, boat, plane—via a number of mounting options. Quick release mounts, a suction cup mount, roll bar mount and additional expansion mounts are all included. The Motorsports HERO Wide camera even mounts to the top and sides of helmets. So, not only do you get the awesome images provided by the wide angle lens but you also get the perspective of exterior mounting.

The camera shoots up to 56 minutes of 5MP video at 30fps and with a 2GB SD card can capture up to 1945 images when you choose "Photo every 2 seconds" mode. The camera is shockproof and waterproof up to 100'; so even when it's raining you can keep shooting. Runs 3 hours when using Lithium batteries and 2 hours when using NiMH rechargeable batteries.

Motorsports HERO Video Camera *(B&H# GOMSH)* **179.95**

POV.1 • POV.1.5
Point-of-View Video Systems for Extreme Action Sports

The innovative POV.1 captures the most thrilling point of view—yours. This hands-free video sports system is built to withstand the dust, shock and water that make action sports fun. The camera head mounts to your gear, helmet, or handle bars, while the all-digital, flash memory recorder can be mounted nearby or stowed easily in your pack.
The remote controlled recorder has a straight record mode and an edit-on-the-go space saving mode. Recording in DVD-quality MPEG4 video, the POV.1's wide aspect ratio mode allows you to merge footage into an HD workflow. The POV.1 package—with a mountable camera head, built-in video recorder, 1G SD card (2GB limit), wireless remote and software for managing your point-of-view videos allows you to shoot, tag, edit, and share your footage right out of the box. Otherwise the same, the POV.1.5 features a tethered head and can use 8GB SD/SDHC cards. It comes with a 4GB SD card.

- High-quality wearable video camera records with 720 x 480 resolution at 30fps
- Ergonomic user interface design enables single-handed operation and hands-free video capture
- Modular mounting provides camera stability while attached to helmets or other high impact gear
- Shock-resistant, water-resistant and dustproof for use in the most hazardous environment

ELMO SUV-CAM II
Micro Video Camera System

A tough, portable video recording system that can be used for sports, security and industrial applications, the SUV-Cam II is small enough to be mounted in places inaccessible to conventional cameras. Records 2½ hours of DVD-quality on a 4GB SD/SDHC card and can be viewed on the recorder's 2.2" LCD screen or output to a monitor.

- MPEG-4 video is recorded to a SD/SDHC card inserted into the recorder. Images can be played back right on the recorder's 2.2" color LCD screen or by transferring the SD/SDHC card to a PC where they can be viewed using Windows Media Player. Images can also be viewed on a large monitor by connecting the recorder to a TV via its A/V ports. The use of SD cards as a storage medium is ideal for this recorder given a flash memory drive's virtual immunity to shock and vibration.
- When the action starts there is no time to fiddle around with menus and settings to get the system to start recording. Simply needs to press the Start/Stop button once and the unit instantly goes into recording mode even if its been turned off. There is also a 'hold' feature to prevent the 'stop' button from being accidentally pressed during intense or extreme movements.
- Although the camera is ultra compact, it is built of a tough metal waterproof material able to sub-merge down to 132'. Pleasure divers and career marine biologists alike will love recording the won-drous sights and sounds under the sea. (The recorder cannot be immersed in water.)
- The focusing ring is designed that it shouldn't become de-focused under most operating conditions. Additionally, this system enlists the aid of a sophisticated white balance function to ensure that your skies don't turn out green and your snow doesn't acquire a yellowish tinge.

AIPTEK™ www.aiptek.com

Hi-Speed HD 720p HD Camcorder

Incredibly inexpensive, the Hi-Speed HD camcorder captures up to an hour of 720p (1280 x 720) AVCHD video at 30 fps to its internal 2GB memory or up to 16 hours on a removable 32GB SDHC card. This makes it ideal for emailing or uploading to the web. In addition, it can also be used as a 3MP digital camera with a flash and red-eye reduction mode for shooting and storing thousands of digital images. Other features include 2x digital zoom, 2.4" 270° swivel LCD screen, Night Shot mode for recording in low light, and an component output for watching your video and stills on a large screen HDTV. An external mic input allows use of a higher grade mic for higher quality sound recordings. Charge the camera using your computer's USB port or with the included AC adapter.

Hi-Speed HD *(B&H# AIHISPEEDHD)* **119.95**

A-HD+ 1080p HD Camcorder

The A-HD+ steps up with the ability to record 1080p HD video (1440 x 1080) at 30 fps, a 4x digital zoom lens and 8MP digital camera. Although it has a 128MB memory, you can record up to 8 hours of 1080p HD video on a removable 32GB SD/SDHC card. It also has a video input allowing you to record movies or TV shows from your TV, VCR or DVD player for viewing on the 2.4" LCD. Plug in a pair of headphones into the hadphone jack and you have a personal media or MP3 player. (It doesn't have an external mic input).

A-HD+ *(B&H # AIAHD1080P)* **149.95**

Action-HD 1080p HD Camcorder

The Action-HD steps up (from the A-HD+) with a 3x optical zoom autofocus lens, LED lights to help focus and boost images in low light, and a 2" macro zoom for up-close stills and video. It also includes a remote control and a compact alloy tripod.

Action-HD+ *(B&H # AIAHDPRO)* .. **164.95**

Action-HD GVS 1080p HD Camcorder

The top-of-the-line Action-HD GVS features a 5x optical zoom and Gyroscopic (image) stabilization that cuts down on blur from hand shake or a moving subject. It has a 3" swivel-reversible LCD display that rotates up to 270° and Night Shot mode for recording in low light situations. It has an external mic input, but no video input. It also doubles as a 5-megapixel digital still camera. In Burst mode, can shoot 10 frames per second, and has a built-in flash with red-eye reduction.

Action-HD+ GVS *(B&H# AIAHDGVS)* **199.95**

Compact Alloy Tripod

Compact, table-top tripod for use with Aiptek cameras or any other small camera using a 1/4-20 connection. This sturdy base comes with a stabilizing ring allowing full circle pivoting.

SANYO

VPC-CG10 Dual Camera Xacti

Conveniently capture life's important moments. The VPC-CG10 records HD 720p video at 30fps and up to 10 megapixel digital photos with a 5x optical zoom (38-190mm equivalent). This in a very stylish, sleek, upright design. It has a large, 3" display that flips out from the camera and rotates up to 285° on an axis that allows you to take great video or still images from otherwise-difficult-to-view positions. Especially useful when shooting in confined spaces. For convenience, videos, still photos and the various settings / menus can be easily accessed with a user's thumb. The camera easily fits in a coat pocket and makes sharing videos and photos via social networking web sites, portable video devices like iPod's, TV's and computers, easy.

VPC-CG10: Available in Black or Pink *(B&H # SAVPCCG10P*)* **199.95**

VPC-TH1 Dual Camera Xacti

Capture life's special moments as they happen - the VPC-TH1 records HD 720p video at 30fps and up to 2-megapixel digital photos with a 30x optical zoom. It has a more traditional horizontal design but this camera is far from ordinary. Compact, lightweight design makes the VPC-TH1 extremely portable and easy to use. It has a large, 3" display that flips out from the camera and rotates up to 285° on an axis that allows you to take great video or still images from otherwise-difficult-to-view positions Videos, still photos and the various settings and menus can be easily accessed with the user's thumb.

VPC-TH1: Available in Blue *(B&H# SAVPCTH1BL)* or Silver *(B&H# SAVPCTH1)* **299.95**

All Sanyo Xacti Cameras Feature:

- They pack high performance, cutting edge technology into a small, stylish, easy to use camera. Designed to fit perfectly in the palm of your hand, they feature an easy to navigate menu which make them a great choice for the beginner and the more advanced user. They are the perfect blend of style, performance, and ease of use.
- AVCHD format makes sharing videos and photos via e-mail or social networking web sites a breeze. Import video and still image files directly into iTunes software and then port them to a video-capable iPod.
- Using Face Detection technology, they recognize up to 12 faces for videos and still pictures and optimize focus and aperture settings to ensure all subjects are in focus.
- Sophisticated image stabilizer uses a proprietary Sanyo algorithm to automatically compensate for distracting up-and-down or side-to-side camera movement, keeping your subject steady and easy to follow. It accurately distinguishes between unintentional camera shake and deliberate camera movement. Operates in both wide-angle and telephoto modes.
- Take pictures like the pros with sequential shooting up to 13 frames per second (7 fps on the VPC-CG10). The perfect solution for action photography.
- Record almost 4 hours of HD video on a 16GB SDHC memory card
- They offer simultaneous shooting of video clips and still images with a simple press of the shutter button during the shooting of a movie clip. You will never need to miss another precious photo opportunity (not on the VPC-FH1) .
- They all have (except on the VPC-CG10) an HDMI output for a single cable connection to an HDTV or DVD recorder
- Supplied extra-power battery provides over 3 hours of recording time

VPC-WH1 Dual Camera Xacti

The VPC-WH1 Xacti has the highest possible waterproof rating—IPX8—allowing you to record stunning 720p AVCHD video 10' underwaterfor an entire hour. A small, stylish, easy to use camera that fits in the palm of your hand, it features an extra long 30x optical zoom (35mm equivalent of 43-1290mm), 2.5" display that flips out and rotates up to 285°and an easy to navigate menu.

VPC-WH1: Available in Blue *(B&H # SSAVPCWH1BL)* or Yellow *(B&H # SAVPCWH1YL)* **399.95**

VPC-FH1 Dual Camera Xacti

Take stunning full 1080p High Definition video at 60fps and amazing 8 megapixel digital photos. Compact and stylish, the palm fitting VPC-FH1 features a large, 3" LCD display that flips out from the camera and rotates up to 285°, and easy to navigate menu, 600fps slow motion mode, and face chasing technology which automatically read and corrects focus and lighting for up to 12 different subjects. It has a 16x optical zoom lens for video and a 10x optical zoom lens for photo. Videos, still photos and the various settings and menus can be easily accessed via your thumb.

- In addition to full 1080P HD Video the VPC-FH1 takes amazing 8 megapixel still photos. With an 8-megapixel CMOS image sensor, still images can be interpolated up to 12 megapixel quality.
- With an advanced 16x optical zoom, the field of view is increased to approximately 44 millimeters (vs. 77mm for more conventional zoom). The overall zooming range is 41.7-667mmm (35mm equivalent). The photo zoom range is 35.7-357mm (35mm equivalent).

SAMSUNG

SC-MX20 Flash Memory Camcorder

The SC-MX20 is a SD (Standard Definition) flash memory camcorder with an external memory card slot that holds up to a 32GB SD/SDHC card for up to 16 hours of recording, which can then be quickly transferred to your PC for uploading or emailing. It also offers an optimized recording mode for easy uploading to YouTube whereby the camera utomatically adjusts the resolution to 640 x 480. You don't have to convert your files, which results in effortless uploading and sharing. Included bundled software allows for even more editing options. For convenience, iCheck mode lets you check remaining battery life and memory capacity with one touch, while iScene mode allows you to select up to 10 auto scene modes for capturing the best video in a particular environment. Other features include a 2.7" LCD display, Advanced Digital Image Stabilization, Face Detection and 34x optical zoom. In addition, the swivel hand-grip adjusts for regular and low angle shooting.

SC-MX20: Available in Blue, White, Red or Black *(B&H# SASCMX20*)* **249.95**

SMX-F34 Flash Memory Camcorder

Stepping up from the SC-MX20, the SMX-F34 offers internal memory, digital still photo capability, and Samsung's 42x Intelli-Zoom. Significantly more reliable than a standard digital zoom which negatively affects the quality of the image, Intelli-Zoom allows users to go beyond the camcorder's 34x optical zoom without sacrificing image quality. It has a memory card slot for SD/SDHC and offers 16GB of internal flash memory. It also applies H.264 compression to standard definition video, which considerably extends record times. Record up to eight hours of video directly to the camcorder's internal flash memory without having to rely on a memory card. It also offers a new image processor that reduces power consumption. Record up to three hours of uninterrupted video on a single charge – ideal for those who wish to shoot for extended periods.

- High-performance 680K pixel CCD sensor delivers 720 x 480 resolution, while the image processor yields higher-quality video, 3-D Noise Reduction, Face Detection for up to five subjects, and a brighter 2.7" LCD display.
- Equipped with Samsung's exclusive swivel hand-grip, which effortlessly adjusts for regular and low angle shooting.
- Photo mode lets you use the camcorder as a digital camera, snapping 800 x 600 resolution images.
- In Web & Mobile shooting mode, users can set the SMX-F34 to record in the exact format and resolution required by YouTube™, for fast and easy upload. In this mode, the camcorder's resolution is automatically adjusted to 640 x 480 (H.264 / AAC / MP4) and optimized for use on Web sites. Furthermore, unlike other camcorders, users can easily import video from the SMX-F34 and play it on MP3 players and other portable multimedia players supporting H.264, without having to convert the files.

SMX-F34: Available in Midnight Black, Galaxy Silver, Deep Ocean Blue or Sunset Red *(B&H# SASMXF34*)*..... **299.95**

HMX-100 • HMX-104 • HMX-105 Full-HD Flash Memory Camcorders

Samsung's H-Series offer high-performance, full 1920 x 1080 HD video, a renowned Schneider Kreuznach Varioplan HD lens, and state-of-the-art design with internal SSD (Solid State) drives provide onboard memory. Lightweight and compact, the drives operate silently with very low heat emission, and feature no moving parts, which significantly reduces overall power consumption and enhances reliability. No moving parts also make them more durable and resistant to shock and vibrations, which pose a considerable threat to the performance of HDD based digital camcorders. Additionally, SSD technology is faster than HDD, including quicker boot-up and read/write speeds which is required for the amount of data recorded in full-HD resolution. When actively reading and writing data, Samsung's SSD technology consumes approximately 1/8th of the power of a comparable HDD.

- The HMX-H104 offers a 16GB SSD, the HMX-105 has a 32GB SSD. Their memory capacity can be expanded using an SD/SDHC memory card. The HMX-H100 doesn't have an internal SSD and records to a SD/SDHC memory card only. The camcorders also utilize H.264 compression, which significantly increases recording time. At full-HD resolution and when set to fine mode, users can record up to three hours directly to the HMX-H104 or six hours to the HMX-H105.
- They incorporate a 10x wide-angle (37-370mm equivalent) Schneider Kreuznach Varioplan HD zoom lens which is paired with Samsung's Optical Image Stabilizer to educe blur from vibrations or hand shake. The wide angle lens makes them ideal for recording large groups of family or friends, breathtaking landscapes or even capturing all the action at sporting events.
- High performance 1/4.5" 2.2MP CMOS imaging sensor yields impressive light sensitivity.
- Each can also capture 4.7-megapixel digital still photos with a built-in strobe flash
- They are equipped with a swiveling 2.7" touch screen LCD. When used in conjunction with Samsung's proprietary swivel grip, the additional controls on the LCD screens allow users to effortlessly control the camcorder at low or high angles.
- HD Time Lapse recording mode let users experiment with their creativity. When shooting in Time Lapse recording mode, they will record a single image at pre-selected intervals of 1, 3, 5, 10, 15, or 30 seconds, and will save each image as one single movie file.
- HDMI output lets you enjoy their full-HD content on their HDTV without the need for proprietary docking cradles.

pure digital TECHNOLOGIES

Flip Video Ultra

Change the way you think about camcorders. With a 2GB internal memory that downloads Internet-ready files for emailing and video sharing sites, anyone can make and share videos. The included Flip software helps you organize and archive your footage, while publishing your masterpiece directly to YouTube and AOL Video. Weighing only a few ounces, keep it on you all the time so you'll be ready to capture those "wish you were here" moments.

- Internal memory means no messing around with cards or tapes. The USB arm lets you download directly without needing cords that can get lost or tangled.
- Using the MPEG4/AVI format, your video is compressed into small file sizes making it ready to go straight to the Internet from the camcorder. You completely bypass editing on your computer, getting the video out there faster than ever.

Available in Orange, Black, White or Pink *(B&H# PUF260*)* **119.95**

Flip Video Mino

Similar to the Flip Video Ultra, the compact and stylish Flip Video Mino is 40% smaller and features an internal, rechargeable, lithium-ion battery. Fits right in your pocket, ready to shoot up to 60 minutes of video to the 2GB internal memory whenever and wherever. Otherwise the same, the flat back panel with touch-sensitive buttons features a 1.5" LCD screen and all the controls you need to capture and playback video, nothing more, keeping the Mino as user-friendly as it gets.

- Video output enables instant viewing of videos on TV
- Edit custom movies that include music from your personal library
- Playback, pause, FF, REW, zoom and delete functions

With Mini Tripod, in Black or White *(B&H# PUF360*)*..... **159.95**

Flip Video MinoHD

Flip Video MinoHD gives you an easy-to-use HD 720p camcorder that fits in your pocket. Weighing only 3.3 oz. and the size of a small cell phone, the MinoHD can be controlled with one hand. There's no menu to worry about. All the functions you need to operate the camcorder are clearly marked and easy to understand. Capture up to 60 minutes of AVCHD video to the built-in 4GB flash memory.
Also features a 1.5" LCD screen for composition and playback, a 3 second startup time, and a silent mode for discrete recording.

- Records 16:9 HD video at 1280 x 720 at 30 fps. Watch all your videos immediately after you shot them on your HDTV - in their full HD glory using the supplied cable.
- Even though the camera lens is fixed focus, there is a 2x digital zoom for when you need to get just a little bit closer.
- Ready to edit and upload your footage? Simply flip out the USB arm and connect it to your computer. Use the built-in FlipShare software to email, edit, and post to sites such as YouTube. The video files also work with iTunes, iMovie, and iPhoto.
- Child Safe mode ensures that those once-in-a-lifetime clips won't be accidently erased.

ZR960

MiniDV Camcorder

The ZR960 provides users with the reliability of the MiniDV format—whether you just want to record your child's ballet recital or you're an aspiring film student. Features include Quick Start, 41x Advanced Zoom, Electronic Image Stabilization, and a 2.7" widescreen LCD. It also offers an external mic and headphone terminals for enhanced audio recording—a must for students. DV (IEEE1394) terminal lets you easily upload your video to a computer for editing or sharing on the web.

- 1/6" CCD image sensor works with Canon's DIGIC DV Image Processor to produce true-to-life color and tonality
- 41x Advanced Zoom plus you also have the option to use a 37x optical Zoom or 2000x digital zoom.
- Record to MiniDV and take advantage of both its universal compatibility with existing technology while also benefiting from a level of reliability, which pros have counted on for over a decade.
- Electronic Image Stabilization corrects for camera shake or if you're subject is moving or you're accidentally bumped
- Once you open the LCD the ZR960 is ready to record—never again miss that once in a lifetime moment.
- Smooth zoom control with three fixed speeds for fluid transitions
- Widescreen HR recording lets you capture everything in 16:9 computer for sharing
- Exposure lock keeps your exposure settings in place when you want to refine your composition
- Level and Grid Markers help you compose better shots by lining up the horizontal lines in your images

Canon

FS-200 • FS-21 • FS-22

Standard Definition Flash Memory Camcorders

Measuring just 2.2 x 2.3 x 4.8" (WHD), the ultra-sleek FS200 combines big video storage capacity in a compact camcorder weighing only 7.9 oz. It features a 680,000-pixel CCD sensor, Genuine Canon 41x Advanced Zoom, and DIGIC DV II Image Processor for exceptional color and clarity. Available in three fashionable colors, the FS-200 offers Image Stabilization, a 2.7" Widescreen LCD and records video directly to an SDHC memory card. It also offers a host of conveniences including, Video Snapshot, Quick Start, Quick Charge, Dual Shot, joystick control, Program AE modes and more.

Stepping up, the FS21 and FS22 add dual flash memory capability. In addtion to recording to an SDHC memory card, the FS21 incorporates a 16GB internal Flash drive, for up to 10 hours of video recording, while the FS22 doubles that with a 32GB drive. Additionally, they feature a 1.07-megapixel CCD image sensor and Genuine Canon 48x Advanced Zoom.

- DIGIC DV II Image Processor allows continuous shooting of up to five 1024 x 768 still images per second.
- Quick Charge feature gives the supplied BP-808 lithium-ion battery 30- or 60-minutes of juice, in just 10- or 20-minutes of charging (respectively). The battery also keeps you informed by displaying remaining battery life to the minute.
- Industry-leading image stabilization will give your video a more professional look, with rock-steady shots, even when you're shooting at maximum telephoto range.
- Records high-resolution 16:9 widescreen for picture-perfect video.
- Dual Shot Mode lets you capture video and photos in the same mode - without requiring any switching.
- Joystick control eliminates many buttons, making the camcorder easier than ever to use. Control exposure lock and exposure compensation during recording; and control Play, Stop, FF and REW functions during playback, all from one convenient place.
- Offers three pre-set zoom speeds for smooth, steady, professional-looking zooms.
- For the best exposure for various situations, the Program AE mode will automatically adjust the settings to compensate for the conditions and subject. Choose from Portrait, Sports, Night, Snow, Beach, Sunset, Spotlight and Fireworks.
- Mic terminal lets you attach an external microphone, while a headphone terminal lets you use headphones to more accurately record or monitor audio from a specific source, or to review audio in playback.

FS-200: Available in Misty Silver *(B&H# CAFS200S)*, Evening Blue *(B&H# CAFS200BL)*, and Sunrise Red *(B&H# CAFS200R)* **329.99**
FS-21 *(B&H# CAFS21)* **499.99**
FS-22 *(B&H# CAFS22)* **599.99**

The FS-200, FS-21, FS-22, HF20, HF200, HFS10 & HFS100 All Feature:

- Battery displays the remaining recording time to the minute
- In Video Snapshot Mode capture a series of 4-second video clips, then blend in one of 10 supplied music tracks, or your favorite background music to create an entertaining movie.
- Level Marker makes it easy to keep your camera level for more better looking video, while a Grid Marker lets you compose hots accurately, according to the grid in the viewfinder.
- When in Camera Mode and the LCD panel is closed, the camcorder is placed in standby mode. When the action starts, open the LCD panel and you start recording in less than one second.
- Pre-Record gives you a head start on capturing the action by continuously recording three seconds of video to memory before you even press the record button. When you start recording, the additional video also recorded.
- Built-in video light lets you shoot subjects in color, in low light, up to 4.9' away.
- Built-in electronic lens cover means you never have to go looking for your lens cover again.
- Hi-speed USB 2.0 terminal for ultra-fast transfer of movies and photos.
- With the optional Canon's DW-100 DVD Burner, a single cable, and the click of a few buttons is all you need for your videos to be burned to a disc ready to play in a compatible DVD player.
- Bundled ImageMixer 3SE software (Windows XP and Vista compatible) lets you play back recorded video on a computer, as well as edit your footage and burn it to a DVD. Trim, reorder, and combine scenes, as well as add music, titles, and transitions.

DW-100 DVD Burner

Share your best camcorder footage with family and friends, or burn DVDs for archival backup. This easy-to-use DVD burner records onto DVD-R/-RW/-R DL (dual-layer) DVDs in either AVCHD high definition or standard definition. Transfer and back up footage from your Canon HDD or flash memory camcorder via USB 2.0.

- Only 3 buttons
- Transfers photos
- Plays back to HDTV via camcorder
- Compatible with 8.5GB High Capacity DVD-R DL discs, for approx. 2.6 hours of recording time
- 3 backup modes: entire media file, new scenes, or playlist

Canon

VIXIA HF20 • HF200 • HF S10 • HF S100

HD (High Definition) Flash Memory Camcorders

Powerhouse camcorders, the **VIXIA HF20** and **HF200** deliver brilliant video and still photos through Canon's 3.89 Megapixel Full HD CMOS image sensor and latest-generation DIGIC DV III advanced image processor. They also feature Genuine Canon 15x HD Video Lens, Genuine Canon Face Detection capability, SuperRange Optical Image Stabilization, advanced Auto Exposure system, 24Mbps recording, Video Snapshot and Dual Shot Modes. They can record up to 3 hours of crisp, high definition video (24 Mbsp mode) to a 32GB removable SDHC memory card, while the VIXIA HF20 offers extended storage with the option of recording to a 32GB internal flash drive. Incredibly compact, they both measure 2.8 x 2.4 x 4.9" (WHD) and weigh only 14 oz.

Stepping up, the **VIXIA HF S10** and **HF S100** deliver brilliant video and photos through an exclusive 8.59 Megapixel CMOS image sensor. They incorporate a Canon 10x HD Video Lens plus a built-in 1.7x Digital Tele-converter for an extended telephoto range, while retaining renowned Canon image quality. They also record up to 3 hours of crisp, high definition video (24Mbsp mode) to a 32GB SDHC memory card, while the VIXIA HF S10 offers extended storage with the option of recording to a 32GB internal Flash drive. Incredibly compact, they measure only 2.8 x 2.7 x 5.4" (WHD) and weigh just 17 oz.

Canon

VIXIA HV40

HDV Camcorder

The VIXIA HV40 shares the core components found within the VIXIA line, but also offers a Genuine Canon 10x HD Video Lens and 2.96 Megapixel Full HD CMOS Image Sensor. What's more, it also allows users to record in native 24p Mode—allowing you to capture and record 24 progressive fps (frames per second) to a HDV tape, a big advantage for the serious filmmaker. SuperRange Optical Image Stabilization and Instant Auto Focus give the ontrol demanded by high definition. If you wish to continue to use your existing SD (Standard Definition) equipment, the HV40 has both SD and HD recording modes. Another add-on feature, Custom Key Mode, enables users to assign commonly used functions to a single button on the camcorder for easy access.

- 2.96MP full HD CMOS sensor delivers 1920 x 1080 HD video, while Canon's DIGIC DV II Image Processor reduces image noise and customizes the color and tonality of your video and still images.
- 10x HD Video Lens with three fixed zoom speeds for fluid transitions. Super spectra coating eliminates flare and ghosting, while the aspheric design cuts down on aberration while boosting resolution.
- 2.7" multi-angle widescreen LCD with hard coat AR surface reproduces color accurately with reduced glare and enhanced contrast.

Vixia HV40 *(B&H# CAHV40)* **999.95**

All Canon HD Camcorders Feature:

- Revolutionary Instant AF focusing system achieves focus instantaneously, reducing focus "hunting". Benefits are especially apparent in high brightness and night shooting situations. Capture fast, accurate focusing, even when following a moving subject.
- 24p Cinema Mode enables a professional "film-look". In addition, you can use the CINEMA setting which changes the color and tonal characteristics, evoking the look and feel of a movie shown in a theater. For added flexibility, these settings can be used together or independently.
- 24Mbps recording capability gives you the highest quality AVCHD video possible. You'll see enhanced detail, finer gradations of tones and improved reproduction of moving subjects.
- SuperRange Optical Image Stabilization (OIS) combines gyro- and image-sensors to correct for a wide range of camcorder motion without a loss in image quality.
- In addition to the standard interlaced video (60i), you capture video in 30p (30 progressive frames, recorded to 60i), which is particularly useful for footage to be used on the Internet.

Vixia HF20 • HF200 • HF S10 • HF S100 All Feature

- Genuine Canon 10x (HF S10 and HF S100) or 15x (HF20 and HF200) HD Video lenses offer four zoom speeds (three pre-set, one variable) for smooth, steady, professional-looking zooms. Aspheric design reduces aberration and increases resolution, ensuring crisp, sharp video — enhancing the HD image quality. Additionally, a gradation neutral density (ND) system gives you better exposures in bright shooting situations.
- They capture 1920 x 1080 HD video via 3.89- or 8.59-megapixel HD CMOS image sensor. Canon's exclusive image sensors provide high color resolution and advanced color reproduction and features proprietary noise reduction technologies for crisp, sharp images— even in dimly lit scenes.
- DIGIC DV III image processor delives enhanced image quality, true color production for both video and photos, and a sophisticated noise reduction for exceptional low-light performance. It also allows continuous shooting of digital photos.
- When manually focusing, a focus assist function provides a 2x magnification of your subject to help you capture razor-sharp images.
- With Canon's high quality Face Detection technology, up to 35 faces can be detected automatically, and 9 detection frames can be displayed at one time. This ensures razor-sharp focus and natural, accurate exposure of the chosen subjects. It recognizes faces that are turned downwards or sideways. In addition, a specific face may be used to search for clips featuring that specific subject's face.
- Mini Advanced Accessory Shoe on the camcorder lets you attach available Canon optional accessories, such as the VL-5 video light or DM-100 directional stereo microphone. Has an external mic input.
- 2.7" Multi-Angle Vivid Widescreen LCD features hard coat anti-reflection surface, improved color reproduction and wider range of viewing angles—so you see more of what you're recording.
- Built-in audio meter and manual audio level adjustments, so your video sounds as good as they look.
- HDMI (1.3) allows a single cable to connect the camcorder to an HDTV for the highest quality playback (video and audio). The camcorders also support CEC (Consumer Electronics Control), which allows multiple HDMI devices connected to an HDTV to be controlled by a single remote for simple operation.

VIXIA HG20 • VIXIA HG21

High Definition Hard Disk Drive Camcorders

Sony's HD hard disk drive (HDD) camcorders have the ability to shoot video directly to an internal drive or to a removable SDHC memory card allowing the camcorders to deliver a new level of performance, style and flexibility. Internal memory enables users to record video to the camcorder's built-in drive even if they do not have an SDHC card handy. When the internal drive becomes full, footage can be easily transferred to an SDHC memory card, and when it comes time to view their video, the card is simply inserted into a memory card reader in a computer or HDTV for instant viewing. Furthermore, having an SDHC memory card slot allows for expandability, since greater capacity can be added in the future by purchasing additional cards. They also feature a Genuine Canon HD Video Lens, Canon HD CMOS Image Sensor for Full HD (1920 x 1080) image capture; DIGIC DV II Image Processor for superior color and clarity; Instant AutoFocus for fast and accurate auto focusing, which is crucial for HD; and SuperRange Optical Image Stabilization, which corrects a wide range of camcorder vibration for virtually shake-free images.

- The VIXIA HG20 (60GB hard drive) can record up to 22 hours of HD video, the VIXIA HG21 (120GB) can record for up to 45 hours. Both offer the ability to record directly to an SDHC card.
- Selectable frame rates let you choose between 60i, 30p and 24p to achieve just the look you want. 24p Cinema Mode enables aspiring moviemakers to achieve a professional "film-look." In addition, CINE setting changes the color and tonal characteristics, evoking the look and feel of a movie shown in a theater. For added flexibility, these settings can be used together or independently.
- With 24Mbps bit rate recording, video shot by the HG20 or HG21 of fast-moving sporting events, multi-color butterflies on a variegated leaf or the shading of a brilliant sunset will be remarkable.

GZ-MS120 • GZ-MS130

Everio S Series SD Card Camcorders

The elegant, slim, lightweight GZ-MS120 and GZ-MS130 feature a Konica Minolta 35x optical zoom lens, Laser Touch operation, automatic video light, image stabilization, built-in lens cover and remaining battery power indicators.

The GZ-MS120 has a pair of SD/SDHC card slots while the GZ-MS130 offers a single SD/SDHC card slot and 16GB of internal flash memory. Both offer continuous recording –when one storage medium fills up, recording automatically switches to the other. Record up to 15 hours in the highest quality mode or up to 80 hours in lowest quality mode using two 32GB cards.

- Record digital still images by simply switching to the image mode and then pressing the snapshot button. Record still images with resolution up to 832 x 624.
- They include a remote control to operate Everio from a distance for playback, DVD burning, etc. just like a DVD deck.

GZ-MS120: Available in Onyx Black, Topaz Blue or Garnet Red *(JVGZMS120*)*.....**269.95**

GZ-MS130: In Onyx Black *(JVGZMS130B)*.....**314.95**

Pocket Video Cameras

Never miss a moment with these "go-anywhere" high definition cameras. Featuring a pocketable design built for easy video—there are no lens caps, no dials to turn, or settings to set. Just turn them on and hit record to capture the action, adventure, and all the juicy details in stunning HD. Make your cinematic debut on any HDTV. Or just pop the USB in the nearest PC and you're ready to share the fun on YouTube. Edit, add music, and personalize your flick and easily share with your adoring fans.

- High-quality video capture in bright light or low light - from the beach, to the nightclub
- Expandable SD/SDHC Card slot for memory cards up to 32 GB, that can record up to 10 hours of HD video
- Built-in software for easy editing and sharing of content to YouTube and other social media and networking websites.
- Everything you need is at the touch of a button — no lens cap, dials to turn or settings to adjust.
- Easy HDTV playback with included HDMI cable
- Included software lets you:

– Edit, trim, splice and enhance videos.
– Add pictures and music to your videos to make cool mash-ups.
– Grab still images from video frames to get that perfect shot
– Email your creations or upload to YouTube right from the software

- They include pre-charged AA NiMH rechargeable batteries and battery charger

Zx1 Only *(B&H# KOZX1*)*: The Zx1 features a 2" LCD screen, shoots 720p HD at 30 or 60 fps and has an IP43 certified weather-resistant design that stands up to splashes, dirt and more. Available in Black and Pink.....**159.95**

Zi6 Only *(B&H# KOZI6*)*: The Zi6 has a 2.4" LCD screen and offers three recording modes: HD at 30 or 60 fps, or VGA. Available in Black, Blue, pink, Red and Yellow.....**149.95**

GZ-MG630 • GZ-MG670 • GZ-MG680

Everio G Series Hybrid (microSD/SDHC & Hard Disk) Standard Definition Camcorders

The GZ-MG630, GZ-MG670 and GZ-MG680 each feature a 1/6" 800,000-pixel CCD image sensor, Konica Minolta 40x dynamic zoom and 800x digital zoom. Dynamic zoom achieves up to 40x magnification by using nearly all of the CCD's effective pixels without any picture quality degradation. Otherwise identical except for their storage capacity, the GZ-MG670 and GZ-MG680 also offer HD upconversion that converts the camcorders' standard definition recordings for output as a 1920 x 1080p upconverted video signal, allowing HDMI connection to compatible HD televisions. With had disk drive capacities of 60GB to 120GB, they allow up to 28 to 150 hours of recording, depending on record mode.

GZ-MG630: 60GB Hard Disk Drive/ microSD/SDHC Card in Diamond Silver, Sapphire Blue or Ruby Red *(B&H# JVGZMG630*)*.....**399.95**

GZ-MG670: 80GB Hard Disk Drive/ microSD/SDHC Card in Onyx Black *(B&H# JVGZMG670B)*.....**439.95**

GZ-MG680: 120GB Hard Disk Drive/ microSD/SDHC Card in Onyx Black *(B&H# JVGZMG680B)*.....**499.95**

Everio S Series, Everio G Series and Everio HD Series All Feature

- Each is equipped with a 2.7" color LCD monitor
- Opening the LCD automatically opens the built-in lens cover and powers up the camcorder. Closing the LCD also closes the lens cover and shuts down the power. Quick Restart allows recording to start one second after the LCD is re-opened.
- Built-in light turns on automatically so you can shoot brilliant images even in low light situations
- One Touch Export function allows videos to be imported into iTunes and loaded into an iPod or iPhone.
- Zoom and record using the Laser Touch scroll bar or buttons next to the LCD, or with the standard zoom lever and REC button. Laser Touch also makes it easy to browse through thumbnail images of recorded scenes and access menu selection.
- Bundled Everio MediaBrowser software (Windows) provides an easy-to-search calendar-type graphical interface for indexing and finding video files with thumbnail images of recorded videos and stills are superimposed on the calendar. With built-in filter functions, you can instantly narrow down the selection to just videos, just stills, and so on.
- The software also allows easy playback, simple cut editing, and "Decomotion" to spruce up recorded footage with animated graphics for upload to YouTube. Supports burning to Blu-ray disc in addition to DVD.
- Conveniently upload videos to YouTube™ via One Touch Upload function. Users can perform an in-camera edit of any length video to fit the 10-minute YouTube limit.
- To easily check the content on Everio's HDD or SD/SDHC card, the Digest Playback unction automatically selects highlight scenes using JVC's proprietary algorithm and plays back what looks like a "coming attractions" trailer for a movie. 60 minutes of footage is condensed into five minutes of highlight scenes.
- Data battery allows you to check the remaining power by % and remaining recording time in minutes
- Convenient 2-way strap can be used in the usual camcorder fashion, supporting the user's hand when shooting, or it can be extended and used as a wrist strap like the type on most digital still cameras.
- Optional CU-VD50 Direct DVD Burner/Player lets you burn videos to a DVD disc without having to use a PC.
- With the CU-VD50 or with a DVD burner equipped PC, you can burn a full-sized DVD-Video disc at the touch of a button. Just press the DIRECT DVD button on the camcorder, and the DVD burning process starts automatically. Automatically transfer only newly recorded data to the burner, just the scenes you manually select, or pre-select the scenes you want in the order you want internally at the camera using the Playlist function.

GZ-HM200 • GZ-HD300 • GZ-HD320 Everio HD Hard Disk Camcorders

JVC's Everio HD camcorders all record 1920 x 1080 full HD video. The GZ-HD300 with 60GB hard drive, and the GZ-HD320 with 120GB hard drive, offer HDD storage for extra-long recording times. The GZ-HM200 offers dual SD card recording, with continuous recording from one card to the next, and is one of the smallest and lightest full HD camcorders available. They feature a 1/4.1" 3.05 megapixel CMOS image sensor, and they maintain native 1920 x 1080 resolution through playback, enabling output of a 1080p 60 fps progressive signal to make the most of high-end HD displays. Using the same GENESSA processing technology used in JVC HD televisions, conversion to 1920 x 1080 at 60 fps provides seamless natural video, free of motion judder during fast action activities, jaggy lines on angles and moiré patterns on fine details when zooming. 1920 x 1080 HD discs played back via the camera from the JVC CU-VD50 Share Station are also converted to 60 fps progressive.

- Euipped with HDMI (1.3) with x.v.Color. When connected to an x.v.Color compatible HDTV, the pristine world of high definition can be enjoyed to its fullest.
- Specially developed for Everio HD, a new 20x Konica Minolta HD zoom lens provides a high-performance "eye" for the capture of Full HD resolution images.
- JVC's HD Gigabrid Premium video engine applies advanced image processing to optimize image quality, it also contributes to a 30% reduction in power consumption and enables 2.5x faster creation of DVD discs for AVCHD DVDs.
- HD Everios feature the new AVCHD UXP mode with an unprecedented bit rate of up to 24Mbps to deliver more detailed, sharper images with less noise. UXP mode is ideal for storing to Blu-ray or an external hard disk drive. All the recording modes for HD Everio models – UXP, XP, SP, and EP – use Full HD 1920 x 1080 resolution. The GZ-HD300 can record up to 5.5 hours in the UXP mode and up to 25 hours in the EP mode.
- Face Detection technology which automatically detects faces within the image being recorded to accurately adjust focus and exposure for sharp, beautiful images.

NEW!

Everio X (GZ-X900)
9-Megapixel Dual Use Hybrid Camera

Designed for those who wants to shoot high-quality digital stills and HD video, but want the convenience of a single camera, the hybrid Everio GZ-X900, or Everio X, is a small, light, all-in-one camera that offers the powerful shooting combination of Full HD video and 9-megapixel still photos, plus creative shooting functions such as slow motion video and high speed "motor drive" still photography. Small enough to easily slip into a pocket or purse, Everio X weighs just 0.66 lbs. (including battery and a memory card) and measures just 2.6 x 4.8 x 1.46". About the size of a chunky smart phone, Everio X is a slab-sided rectangle without the handgrip, protrusions or indentations found on most camcorders. The design allows plenty of flexibility in how the camera is held – from below, above, or whatever suits the situation and the user's preference. There are top-mounted zoom and record buttons, and a second set next to the LCD screen for additional shooting flexibility. The camera is black with silver accents, with the right side featuring a textured carbon fiber-like finish to provide a secure grip and resist smudges.

- Shoots nine-megapixel (no interpolation) digital stills and Full HD video with 1000 TV lines of horizontal resolution - close to the theoretical maximum horizontal resolution for 1920 x 1080 high definition video for no-compromise images.
- Video and stills are recorded to removable SD/SDHC memory cards, up to 32GB
- 2.8" LCD gives you a wide surface on which to compose and playback all your shots. Laser Touch operation give you the ability to intuitively navigate through the camera's menus on the side and bottom of the screen.
- Up to six 9-megapixel stills can be shot at 15 images per second – faster than what digital SLRs can achieve
- Shoot 1920 x 1080 (60i) Full HD video and full 5.3 megapixel stills at the same time. While recording video, photos can be shot at shutter speeds as fast as 1/4000 second without interrupting video recording.
- Equipped with 5x Konica Minolta HD lens that magnifies up to 8x without any picture degradation thanks to Dynamic Zoom technology. In addition, proprietary optical image stabilization (OIS) technology applies camera shake compensation optically at the Everio X lens entrance to ensure effectiveness throughout the zoom range and allow high quality shooting without a tripod.
- Face detection technology assures accurate focus and exposure, and HDMI™ V.1.3 with x.v.Color™ provides increased color accuracy when connected to HDTV displays.
- The camera's high-speed recording function shoots ultra-slow motion video. Any one of three speeds – 120 frames per second (fps), 300fps and 600fps – can be selected; the faster the recording speed, the slower the playback motion. With this function, 2.4-second bursts of video are recorded that are then played back over a period of up to 24 seconds, a maximum of 20x longer than normal speed.
- Offers easy solutions for distribution. Bundled Windows software features a One Touch Export function to easily export videos into iTunes for playback on an iPod or iPhone. A One Touch Upload function simplifies uploading videos to YouTube™.
- DVD Creation function makes it easy to transfer video to a disc for archiving or sharing. Create a disc directly from the camera using JVC's CU-VD3 or CU-VD50 Share Station DVD burners.

Everio X (GZ-X900) *(B&H # JVGZX900)*.....**999.95**

CU-VD3
Everio Share Station Direct HD DVD Burner

Connect your camcorder via USB 2.0 directly to the CU-VD3 and you can burn a 1-hour DVD (4GB) in just 30 minutes. It is compatilble with AVCHD and MPEG-2 formats, and AVCHD created discs are also playable on compatible Blu-ray players. Plus, it can be connected to your PC, so it can be used as an external DVD burner for your videos and data as well. Uses DVD-R/-RW disc, DVD-R DL disc supported. Can be used horizontally or vertically with the included stand.

CU-VD3 *(B&H# JVCUVD3)*.....**179.95**

CU-VD20
Everio Share Station Direct DVD Burner

Easy DVD creation without a PC and direct USB2.0 connection with Everio camcorders. Burning operations are controlled from the Everio itself or by its remote. The camcorder converts Everio MOD files to the DVD Video format. Discs can be played on most DVD players.

CU-VD20 *(B&H# JVCUVD20)*.....**169.95**

CU-VD40
Everio Share Station Direct DVD Burner

Connect your camcorder directly to the CU-VD40 via USB2.0 and you can burn a full-sized DVD-Video disc without a PC. Burning operations are controlled from the Everio itself or by its remote. The camcorder converts Everio MOD files to the DVD Video format. HDMI and component connections ensure the highest quality HD recordings possible. Supports DVD-R/W and DVD-R DL discs.

CU-VD40 *(B&H# JVCUVD40)*.....**249.95**

CU-VD50
Everio Share Station Direct HD DVD Burner

Connect your camcorder via USB 2.0 directly to the CU-VD50 and you can burn DVD discs with both AVCHD and MPEG-2 formats. Created AVCHD discs are also playable on compatible Blu-ray players. You can choose to superimpose the recording date and time info on the DVD playback screen (HD Everio models only). And when burning a DVD, a menu screen is automatically created according to the Event Icon theme that has been selected.

- Not limited to use with Everio. When connected to your PC, it can be used as an external DVD burner for your videos and data, too.
- Uses DVD-R/-RW disc, DVD-R DL disc supported.
- Can be used horizontally or vertically with the included stand.
- HDMI, component (Y, Pb, Pr) video and composite video and audio output udio/Video output
- 1920 x 1080 output & with x.v.Color™ • Includes remote control
- DVD burning operation can be controlled by Everio camcorder

Panasonic

SDR-S15 • SDR-S26

Standard Definition SD Card Camcorders

Perfect for active, on-the-go users, the SDR-S15 and SDR-S26 record exclusively to SD/SDHC memory cards and come with VideoCam Suite 2.0 software making it easy to upload to your computer for internet sharing. For simplified recording they offer Intelligent Auto (iA) mode which automatically adjusts the camcorder to your shooting situation, enacting functions such as Face Detection when the situation calls for it. Otherwise the same, the SDR-S15 is equipped with a 10x optical zoom and Electronic Stabilization, the SDR-S26 has an amazing 70x ultra optical zoom lens and Advanced Optical Image Stabilization O.I.S. which reduces the effect of hand-shake even when subjects are zoomed to maximum magnification. Gyro sensors detect hand shake, and the advanced O.I.S. shifts the lens to correct the optical axis and repeats this detection and correction process about 4,000 times per second.

- They record to SD/SDHC memory cards for easy transfer of video to PC for email and easy uploading to social media sites.
- 2.7" wide LCD gives you a generous platform on which to compose and playback video and stills.
- Electronic Image Stabilization cuts down on blur caused by hand-shake or a moving subject for cleaner video and stills.
- Sub Rec Button for handheld shooting and one-handed operation
- One-Touch Navigation uses the joystick for most used operations

SDR-S15 *(B&H# PASDRS15*)*
Available in Maroon, Silver or Black.....**279.95**

SDR-S26 *(B&H # PASDRS26*)*
Available in Champagne Gold, Red, Blue or Black **299.95**

SDR-SW21

Waterproof SD Card Camcorder

Like the SDR-S15 (above), SDR-SW21 records to SD/SDHC Memory Cards, allowing it to be lightweight and compact, ideal for active and on-the-go users. However, the SDR-SW21 is a tough and compact camcorder that is waterproof up to 6.5' in both fresh and salt water; shockproof enough to sustain a 4' drop; and dustproof to protect against particles such as dirt, sand, and dust. The SW21's rugged design makes it ideal for creating videos outdoors and for those with active lifestyles. Equipped with a 10x optical zoom and Electronic Stabilization, it also features a fast 0.6 second quick-start recording so users can easily catch those spontaneous video moments.

- Connect the camcorder to a computer using a USB cable, the bundled VideoCam Suite software automatically starts up, making it possible to seamlessly upload videos that are correctly formatted for video websites for sharing, such as YouTube.
- The SDR-SW21 can easily copy video from an SD card to DVD in one simple step. By connecting to the optional VW-BN1 DVD burner using a USB cable, video r can be copied to a 12-cm DVD disc (DVD-RAM/-RW/-R/-R DL) —no computer needed.
- 2.7" wide LCD gives you a generous platform on which to compose and playback video and stills.

Panasonic

SDR-H80 • SDR-H90

Standard Definition Hard Disk Drive Camcorders with 70x Zoom

Featuring the world's first and most powerful 70x optical ultra-zoom lens, the SDR-H80 and SDR-H90 also include an advanced Optical Image Stabilization (O.I.S.) system which helps reduce blur caused by a shaky hand and Panasonic's Intelligent Auto (iA) technologies, making them easy to use. Panasonic's iA technology detects the shooting conditions and automatically selects the most suitable modes and settings so features like Advanced O.I.S. and Face Detection, which adjusts the exposure so faces are captured perfectly, engage seamlessly. Also included in iA is the Intelligent Scene Selector, which determines which Scene mode will provide the optimal results.

- The SDR-H80 can capture and store up to 54 hours (in LP mode) of video to its 60 GB internal HDD the SDR-H90 can store 72 hours. Both protect data extremely well, thanks to the reliable SDHC/SD Memory Card, which does not require any kind of drive mechanism. In addition, their Anti-Shock Shield helps protect the built-in hard disk from the effects of external impact.
- Connect the camcorders to a computer using a USB cable, and the bundled VideoCam Suite software will automatically start up, making it easy to seamlessly upload videos that are correctly formatted for video websites for sharing, such as YouTube.

HDC-SD20 • HDC-TM20 • HDC-HS20

High Defintion Flash Media and Hard Disk Drive Camcorders

The HDC-SD20, HDC-TM20 and HDC-HS20 are introductory HD camcorders featuring a Leica Dicomar 16x optical/1000x digital zoom lens, AF Tracking, Advanced O.I.S. (optical image stabilizer) LED video light, 2.7" wide LCD touch screen, Highlight Playback, Quick Power-On, 5.1-channel surround sund recording, USB 2.0 interface, and networking with select Panasonic TVs.

HDC-SD20 Black: Records exclusively to SD/SDHC Memory Card *(B&H# PAHDCSD20)*.....**549.95**
HDC-TM20 Black: Records to built-in 16GB memory and SD/SDHC Memory Card. *(B&H# PAHDCTM20)*.....**599.95**
HDC-HS20: Records to internal 80GB hard disk drive and SD/SDHC Memory Card (*B&H# PAHDCHS20)*.....**749.95**

All High Definition Flash Media and Hard Disk Drive Camcorders Feature:

- They enable the transfer to a Mac computer so that video clips can be edited in HD image quality using iMovie software.
- Designed for users who want to view recorded images as quickly as possible, Highlight Playback detects zooming, panning, scene changes, increases and decreases in sound level, faces and more in recorded images as "highlights" by using Panasonic's Intelligent Index System.
- Extremely fast, they start up in just 0.6 seconds. When switched on, they are in record standby and ready to shoot in just 1.9 seconds.
- LCD screen brightness is automatically adjusted (in 16 steps) according to the shooting conditions.
- They record 5.1-channel surround sound with five microphones. A Zoom Mic function links the mic's action to the camera's action.
- Record up to 4 hours/12 hours in highest/lowest quality mode on 32GB SD/SDHC memory card
- Connect them to a VIERA HDTV via an HDMI mini cable, and operate the camcorder using the TV remote control and following on-screen prompts.

HDC-HS250 • HDC-TM300 • HDC-HS300

3MOS High Defintion Flash Media and Hard Disk Drive Camcorders

Semi-professional camcorders HDC-HS250, HDC-TM300 and HDC-HS300 use three full-HD MOS sensors to deliver the highest quality video and still images. Equipped with a 1/4-inch image sensor and large-aperture 20x Leica Dicomar lens, they also record still images with a 10.6-megapixel resolution and feature an 8.3-megapixel resolution for still images when simultaneously recording with video.

- The HDC-HS300 and HDC-TM300 come equipped with a manual ring, an electronic viewfinder and an external mic terminal –ideal for those looking for more expressive video shooting. They allow delicate and precise fingertip control of the zoom, focus, aperture, shutter speed and white balance. The HDC-HS250 is virtually identical, but without the manual functions and electronic viewfinder, thus providing the same high image quality in a slightly smaller body.
- The HDC-HS250 and HDC-HS300 both feature an internal 120GB hard drive which can store up to 50 hours of recording (in HE mode). They can also easily copy recorded video from the SDHC/SD Memory Card to the hard disk, or vice versa. The HDC-TM300 is a a "twin memory" camcorder, meaning it can record to the built-in memory or an SD/SDHC Memory Card. When the memory becomes full, the camcorder switches recording to the memory card to provide uninterrupted recording.

DCR-DVD650 • DCR-DVD850

DVD Handycam Camcorders

Record directly to DVD and enjoy it on your TV. Shooting high quality video is easy with the DCR-DVD650 or DVD850. They feature 60x Carl Zeiss Vario-Tessar optical lens, 2000x digital zoom lens, SteadyShot image stabilization, built-in zoom mic, color viewfinder and 2.7" wide touch panel LCD display. With hybrid recording technology, you record to DVD or removable Memory Stick Duo or PRO Duo media. Otherwise identical, the DCR-DVD850 also offers 16GB of memory allowing you to record and store up to almost 11 hours of video in LP mode.

- Compatible with DVD-R/-RW/+RW and +R DL (Dual Layer)
- Various dubbing functions let you easily copy video from Memory Stick or built-in flash memory to DVD without using a PC.
- Film Roll and Face Index technology help you quickly find the video scenes you want.
- USB 2.0 for fast transfer of video and images to PC for editing.
- 5X zoom in playback or in the playback pause mode.
- Bundled Picture Motion Browser software lets you easily view, organize, and one-click upload images to video and photo sharing Web sites. In addition, multiple output options let you burn your memories to DVD, AVCHD and Blu-ray Disc media.

MHS-CM1 • MHS-PM1

Webbie HD Cameras

The stylish MHS-CM1 and MHS-PM1 capture daily events in HD (1440 x 1080, 1280 x 720) or standard definition (640 x 480) video and 5-megapixel still photos. Five scene selection mode let you capture the best picture possible in any situation. Seamlessly switch from video recording to still photo capture with the press of a button. Or simultaneously capture both motion video and still images. Sharemark and pre-installed Picture Motion Browser Portable software make it easy to transfer content from the cameras to a PC for direct upload to Shutterfly and Picasa Web Albums photo sharing sites, YouTube and Dailymotion video sharing sites, and Photobucket video and photo sharing site. You can also simply drag and drop video files from the camera to your personal computer folders.

- Integrated Lithium-ion battery provides 90 minutes of recording, and both cameras can record up to 8.5 hours of HD video footage or thousands of photos directly to an optional 16GB Memory Stick PRO Duo media.
- Measuring 1.7 x 2.4" (WxH), the MHS-CM1 sports a slim horizontal design that fits naturally in your palm with a large 2.5" swivel LCD screen. It features a 5x optical and 20x digital zoom, and has an integrated LED video light.
- Just 0.9" thick and 2.2" wide, the 4 oz. MHS-PM1 features a 1.8" LCD screen and rotating swivel lens with 4x digital zoom that flips over so you can see yourself while shooting video and taking photos.

SONY

HDR-CX100 High Definition Flash "Memory Stick" Camcorder

The HDR-CX100 will preserve your memories in 1920 x 1080 high-definition video and 4-megapixel photos. Designed to fit within the family budget, it also features intelligent Face Detection and Smile Shutter™ technology, 8GB of embedded memory (a portion of which is used for data management) and is available in three colors. In addition to a high-quality Carl Zeiss Vario-Tessar 10x optical zoom lens, the camcorder is packed with features such as a built-in zoom microphone for recording clear dialog and Steady Shot image stabilization that reduces shake for smooth video and clear photos. The camcorder instantly powers on when you open the LCD screen to make sure you capture the moment before it passes.

- Smile Shutter captures a smile the moment it happens and takes still photos when your subject smiles, even when shooting video. Face Detection automatically detects faces and then controls focus, exposure and color while analyzing and enhancing for more natural skin tone in both video and still images.
- Smooth Slow Record mode increases the record rate from 60 frames per second (fps) to 240 fps, allowing you to capture 3 seconds of fast motion and play the video back in 12 seconds. This is great for analyzing a golf swing or viewing a bird in flight. You can also record an audio track to narrate the video footage.
- 8GB of embedded memory holds over 3 hours of high definition video recording (LP mode). You can also capture content onto Memory Stick PRO Duo media for additional recording time.
- 2.7" touch panel Clear Photo LCD Plus display rotates up to 270° for multiple viewing angles, and the convenient touch panel allows easy access to menus and additional functionality such as spot focus and spot metering.
- Dual record capability lets you capture 2.3MP still images while shooting high definition video, so you can capture those special moments without having to switch recording modes.

HDR-CX100: Available in Silver, Red or Black *(B&H # SOHDRCX100*)*.....**599.00**

HDR-XR100 • HDR-XR200V
High Definition Hard Disk Drive Camcorders

The HDR-XR100 and HDR-XR200V feature 1/5" ClearVid CMOS sensor with Exmor technology, BIONZ image processor and professional-quality Carl Zeiss Vario-Sonnar T* lens to record stunning full HD 1920 x 1080 resolution video as well as 4MP still images. They offer SteadyShot image stabilization, Dolby Digital surround sound, long recording times with built-in hard drives and the ability to record to optional Memory Stick PRO Duo media.

- Face Detection technology recognizes up to 8 faces anywhere in the frame and automatically controls focus, exposure, and color to help capture smiling faces brightly and clearly.
- Smile Shutter technology automatically detects faces and takes photos as your subject smiles, even while shooting HD video. You can also set the sensitivity and choose child, adult, or auto priority.
- "HDD Smart Protection" prevents any recorded video and images from being lost if the camcorder is accidentally dropped.
- 5.1-channel surround sound recording via built-in zoom mic
- Rotable (270°) 2.7" wide (16:9) touch-panel LCD Plus screen
- Dual Record lets you capture still images directly to Memory Stick Duo media while recording video in High Definition.
- Easily copy video or still images from the hard disk to removable Memory Stick Duo or PRO Duo media without using a PC.
- Displays on the LCD screen or viewfinder (in 10% increments) remaining battery power and the recordable time left.
- HDMI (mini) output to transmit HD video and 5.1 channel audio from the camcorder to compatible HDTV via a single cable.
- Smooth Slow Record mode increases the record rate from 60 frames per second (fps) to 240 fps, allowing you to capture 3 seconds of fast motion and play the video back in 12 seconds.

HDR-XR200V Step-up Features

- Improved Optical Steady Shot with Active Mode allows a moveable lens element to shift with a greater range of motion during camera shake. Provides dramatically smoother video footage and photos.
- Built-in Intelligent Flash for added clarity and detail, reduced shadows when taking pictures in low-light situations. ActiveShoe provides on/off power capability directly from the camcorder to select external lights and microphones
- Highlight Playback mode can personalize your video footage by generating a video slideshow with theme transitions and background music. You can also add your own MP3 music files.
- GPS antenna and NAVTEQ digital maps for video and photo geo-tagging, which allows content to be played back on the camcorder map index display or on a PC with the included software.

HDR-XR500V • HDR-XR520V
High Definition Hard Disk Drive Camcorders

Stepping up from the HDR-XR200V, the HDR-XR500V and HDR-XR520V feature a 1/3" Exmor-R back-illuminated CMOS sensor for stunning low light performance. Twice as sensitive as the HDR-XR200V's front-illuminated CMOS sensor at F2.0, the Exmor-R sensor delivers brilliant image clarity and reduced grain. They also feature a Sony G lens that incorporates advanced optics and low-dispersion aspheric glass elements for accurate color production and sharp, detailed images. A six-blade iris produces circular "bokeh" defocus effects for creative shooting possibilities.They also add a 3.2" wide (16:9) touch-panel Xtra Fine (921,000 pixels) LCD, assignable dial (manual control), color viewfinder, external mic input and headphone jack.

SONY

HDR-FX7 3CMOS 1080i HDV Camcorder

Shoot like a pro with the HDR-FX7. Capture and playback amazing video and still images in both 1080i HDV and standard definition on standard miniDV tapes. Recorded HDV video can be conveniently edited with a choice of available HDV, non-linear editing software. Its HDMI interface offers simple, one-cord connection to compatible display devices. ClearVID 3CMOS sensor combined with Sony's Enhanced Imaging Processor results in higher video resolution, greater light sensitivity with minimal picture noise, and more accurate color reproduction

- The HDR-FX7 has a smooth slow record function. With its three sensors, it can capture a six-second burst of video and play it back in 24 seconds as slow motion video.
- Has a high-resolution, 3.5" SwivelScreen LCD screen with Clear Photo Plus LCD for superb contrast and accurate color reproduction. Also sports a high-resolution viewfinder to accurately check composition, focus and image color.
- Has a Carl Zeiss Vario-Sonnar T* lens with a 20x optical zoom plus a 1.5x digital extender realizing a 30x optical zoom without significant degradation of picture quality.
- Super SteadyShot optical image stabilization reduces shaky footage, even when shooting handheld at high zoom settings.
- Provides extensive manual controls for zoom, focus, shutter speed, white balance, iris, and gain. Independent manual zoom and focus rings provide a high degree of manual control.
- Picture Profile allows the user to set manual adjustments for a scene (color, sharpness, white balance, etc) into any one of six presets, so they can be called up at just the touch of a button.
- Dual record function allows 1.2-megapixel still images and video recorded simultaneously, with the press of a button.
- For more control while focusing the camera for greater detail and clarity, the LCD can temporarily be magnified up to 4x its original size without any loss of distortion.
- Settings for focus, zoom, iris, gain, shutter, and white balance can be set to the Assignable Buttons which will create a smooth transition and will take place according to the set time and transition. This function enables the focus to gradually shift from the front of the screen to a deeper part of the screen. Thus the iris enables a smooth change of depth of field.
- By increasing the record rate from 60 fields per second (fps) to 240 fps for 6 seconds allowing you to capture fast motion and which will play the video back in 24 seconds. This is great for analyzing a golf swing or a viewing a bird in flight.
- Capture still images up to 1440 x 810 (16:9 Mode) resolution, directly onto Memory Stick Duo Media for easy transfer to PCs
- Battery information can be displayed on the LCD screen when charging and when the camcorder is turned off. The display will show how much the battery is charged, in 10% increments and the approximate recordable time left when using the LCD screen or in the viewfinder.

HDR-FX7 *(B&H # SOHDRFX7)* **1999.00**

SONY HDR-FX1000

3CMOS 1080p HDV Camcorder

Ideal for amateur videographer shooting weddings or the aspiring cinematographer, the HDR-FX1000 offers advanced cinematic features, including 24P scanning and advanced color settings. It captures full HD 1920 x 1080 resolution using three Sony's ClearVid™ 1/3" CMOS sensor chips which provide high sensitivity, deep resolution, high-speed reading, low noise and a wider dynamic range. It also allows the camcorderto perform significantly better in low-light environments with sensitivity of 1.5 lux.

- 3.2" XtraFine LCD™ (921,000 pixels) and XtraFine 0.45" electronic viewfinder (1,227,000 pixels) for high-resolution and high-contrast images with remarkable color reproduction.
- Peaking focus assist provides a simple way to ensure images are in perfect tack-sharp clarity. The process highlights high-contrast areas that represent sharp lines making focus operation incredibly quick and easy.
- Progressive scan at 1080/24p and 30p gives video productions a film-like look. Using a 2-3 pull down, the 24P scanned image is converted to 60i for easy editing with existing software.
- Three built-in neural density filters provide exceptional light control even in extremely bright environments.
- 30% extension in dynamic range translates into more detail in both highlights and shadows. Increase dynamic range can be very useful when color correcting during post production.
- Incorporates CinemaTone technology, which comes in two flavors. CinemaTone Gamma™ crushes blacks while keeping the mids and highlights detailed, while CinemaTone Color™ deepens color reproduction for richer hues. Combine the two and footage becomes incredibly film-like. CinemaTone Gamma curves can be accessed by the touch of a button.
- Equipped with a Sony G lens with a 29.5mm wide-end viewing angle, extra-low dispersion glass and 20x optical zoom. The lens also has a digital extender that increases magnification by 1.5x, making the lens achieve up to 30x digital zoom levels.
- Manual settings for iris, gain, white balance, shutter speed and focus for increased creativity and control. Use of any of the three manual rings for adjustments to zoom, focus and iris provides even more flexibility.
- When shooting in extremely bright-lit areas, the gain control can be knocked even down to reduce noise even further.
- Histogram gives users a visual/numerical reference for making sure the camera is properly color corrected.
- Zebra feature highlights over-exposed areas of the frame, giving the operator more control over dynamic range.
- Color bar button provides reference for quick calibration on location or in the studio.
- x.v. Color technology built into the HDR-FX1000 means the cameras sees nearly twice as many colors than conventional prosumer-level cameras. The camera provides colors that are more accurate and vivid in gamut.
- HDMI output for connection a widescreen HDTV

SONY

HDR-TG5V

Ultra-Portable HD 1080i Camcorder

The HDR-TG5V delivers full HD 1920 x 1080 resolution video recording and 4-megapixel still image capture in an ultra-portable design, perfect for travel and everyday recording. The stylish HDR-TG5V features a pure titanium body that makes the camcorder remarkably strong, lightweight, and resistant to scuffs and scratches. It includes a built-in GPS receiver that records the latitude and longitude where videos and photos are shot, automatically adjusts the clock to the proper time zone and displays your current location on the LCD with NAVTEQ map index display. The HDR-TG5V comes with 16GBof embedded flash memory that can record up to two hours of high definition video at the highest quality settings, as well as a number of convenient Sony innovations, including Face Detection with Smile Shutter™ technology and Highlight Playback.

- Features a 10x Carl Zeiss Vario-Tessar zoom lens designed for compact camcorders. Precision ground optics help maintain the sharpness and contrast of larger lenses, and SteadyShot image stabilization reduces blur caused by camera shake.
- 2.7" wide (16:9) touch panel Clear Photo LCD Plus™ display provides excellent viewing clarity with improved resolution.
- 4-megapixel still image capture lets you take high resolution digital photos, and for added clarity and detail in low-light situations, the built-in flash reduces shadows and improves pictures.
- Made possible by the BIONZ™ image processing engine, Face Detection technology recognizes up to 8 faces anywhere in the frame and automatically controls focus, exposure, and color to help capture smiling faces brightly and clearly.
- In Smile Shutter the camcorder automatically take still photos when your subject smiles, even while shooting HD video.
- The Highlight Playback feature lets the HDR-TG5V automatically create a short movie - including transitions and music - by using several criteria to identify and compile key scenes.
- Dolby Digital 2 channel stereo recording captures active sounds coming from left and right, while the built-in zoom mic focuses on your subjects in sync with the camera's zoom lens.
- Record video directly to either the 16GB memory or removable Memory Stick PRO Duo media
- Smooth Slow Record lets you slow down fast motion by increasing the record rate from 60 fps) to 240 fps
- x.v.Color™ technology can capture or display nearly twice as many (1.8x) viewable colors as the standard RGB color range.
- HDMI and USB 2.0 output for connection a widescreen HDTV or PC for fast transfer of video and still images for editing.
- Map Index uses your geotagged videos and photos to view your shot locations on NAVTEQ® maps in the camcorder, offering a new way to easily search and find a desired scene by location or view where a scene was captured.
- Film Roll Index creates scene indexes at specified display intervals, making it easier to find and playback the desired moment.
- Face Index uses Face Detection technology to organize your video footage based on the faces detected in each scene.
- Bundled Picture Motion Browser software makes it easy to transfer, sort, and view your video and still images. Multiple output options let you burn to DVD, AVCHD, and Blu-ray Disc™ media, making it simple to upload to video & photo sharing sites.

PAL Camcorders Explained: In the United States, our TV color system is known as NTSC. The North American NTSC television standard uses 525 scan lines at 30 frames per second. But there are two other television standards, called PAL and SECAM, used in the rest of the world. Unlike NTSC, PAL uses 625 scan lines at 25 frames per second. So, while camcorders can record video anywhere in the world, it's where that video is played back that makes a difference.

PAL camcorders are designed to play back in countries that support the PAL color system—such as Europe, China, the Middle East, and South Africa. This means that these camcorders—with their different signals and frame rates—*do not* play back on American televisions. There are no multi-standard camcorders; they are either NTSC or PAL. Variations to these standards also exist, such as PAL-B, PAL-I (United Kingdom), SECAM-D (China), and SECAM-L (France).

impact

VIDEO CONVERSION LENSES

Impact's high-quality convertible lenses are manufactured with premium workmanship, resulting in superior, high-resolution image capture. These conversion lenses are available in several categories: telephoto, wide-angle, macro/close-up, and fisheye. They mount directly onto digital and video camcorders. Impact lenses with a magnetic base will magnetically mount directly to your digital camera or camcorder.
